

Practical No 2 : Installation and configure Google App Engine.

The screenshot displays the Google Cloud console interface. The top navigation bar includes the Google Cloud logo, a 'Select a project' dropdown, and a search bar. The left sidebar lists various services under 'PINNED PRODUCTS', including APIs & Services, Billing, IAM & Admin, Marketplace, Compute Engine, Kubernetes Engine, Cloud Storage, BigQuery, VPC network, Cloud Run, and SQL. The main content area shows a 'Dashboard' with a 'CREATE PROJECT' button. A 'Select a project' dialog box is open in the foreground, featuring a search bar, tabs for 'RECENT', 'STARRED', and 'ALL', and a table with columns 'Name' and 'ID'. The table contains one entry: 'No organization' with ID '0'. A 'CANCEL' button is located at the bottom right of the dialog box. The background shows the console's status bar with weather, time, and system icons.
